Sites &
Tour Guide

Are you ready to explore the enormous campus of UCSC? These tours will offer you the chance to be guided to the various nooks & crannies of this establishment as you learn the rich history of the campus behind these oddities. You will discover that UC Santa Cruz has many precious quirks that preserves the uniqueness of the school because it isn't enough that it's on top of a hill and in the middle of a forest.

 Veggie Shed, CASFS

The Sesnon Gallery operates a museum-oriented program for educational purposes (Porter 100) and encourages interdisciplinary discourse through the lens of the arts. We organize an annual schedule of exhibitions that represents a broad range of methods, media and cultures, in a local, regional, and national context, with a focus on contemporary practice. The Sesnon Gallery works to integrate these programs and exhibitions into the lives of a broader community.

Gallery hours: (Through the academic year)

Sunday – Monday: Closed

Tuesday – Saturday: 12:00–5:00 p.m.

Wednesday: 12:00-8:00 p.m.

*Closed for all University holidays and the summer months.

Gallery Phone: (831)-459-3606

The Porter 100 class taught by Shelby Graham has arranged various tours in a manner that encompasses curious themes. We hope that these tours around the campus open your eyes to what has been here all along.

Sites to Visit

The Collective Museum is a creative re-envisionment of the university as a museum as the artists of Public Doors & Windows, Nolan Calisch, Harrell Fletcher, and Molly Sherman, collected stories from faculty, staff, students, and alumni for about 50 sites on campus. These exhibits range in subject, making sure that every remarkable aspect of UC Santa Cruz is given the proper light of day.

If further explanation for a site is needed, please visit:
www.iascollectivemuseum.com

Equality for Everyone

THE ADVANTAGES OF BEING A WOMAN ARTIST:

Working without the pressure of success
 Not having to be in shows with men
 Having an escape from the art world in your 4 free-lance jobs
 Knowing your career might pick up after you're eighty
 Being reassured that whatever kind of art you make it will be labeled feminine
 Not being stuck in a tenured teaching position
 Seeing your ideas live on in the work of others
 Having the opportunity to choose between career and motherhood
 Not having to duke on those big cigars or paint in Italian suits
 Having more time to work when your mate dumps you for someone younger
 Being included in revised versions of art history
 Not having to undergo the embarrassment of being called a genius
 Getting your picture in the art magazines wearing a gorilla suit

Radical women shaped our lived experiences by questioning art, politics and what it means to make a difference. Come take a walk and celebrate the activists who've changed UC Santa Cruz to become more gender conscious. These sites aim to showcase some of the great activists and social leaders, commemorating their strengths and struggles to make the campus a better place, and learn the history and the fight against intolerant ideas.

Contributed by Boreth Ly

These extraordinary sites are sure to pique your interest (especially if you've never known of their existence). If you dare to venture to these areas of interest, be sure to wear a comfortable pair of shoes and to pack some water as you will be travelling to the far corners of this huge campus. Recommended for the brave and the bold.

led by: Taylor Sullivan

The Political War

Several sites around campus have been locations of political activism or examples of political progress. UCSC has a long history of political activism and political involvement--even our mascot is a result of student protest. This would help viewers learn important historical moments that occurred on campus and show Santa Cruz's active involvement in contemporary issues.

Hole-in-the-Forest: A Transfer Student Adventure

Moving into a new school can be a bit intimidating. Transfer students are thrust into the heart of a university teeming with many interesting locations, information, and people. So much is going on around you and your time here is quite limited.

Student related projects are all over campus, and visiting some of these locations could possibly aspire you to become more involved. Similar to visiting your favorite "hole-in-the-wall" establishments, you will be traversing to various key locations on the upper west side of campus that you probably haven't heard of, but will fall in love with once you've discovered them for yourself. Highly recommended to anyone who doesn't know the area.

Contributed by George Brown
- *Carrillo Mural*, 3rd Floor, Baskin Engineering

UC Santa Cruz is the most natural campus in the country, and its design was no accident. Through planning and careful attention the most artificial parts of this University were brought into cooperation with its environment.

Tours available per appointment, and should last no more than 30 minutes. Tours will be located around Science Hill

Explore the relationship between formation & structure as you delve into knowledge about the nature on which UC Santa Cruz was founded on. This tour begins at Porter, across the bridges to Kerr Hall, and up to Science Hill. You will be viewing the contrasting themes via 'The Oldest Tree on Campus' vs. 'Core West Parking Garage'. In the case of 'The Rooftop Greenhouses' we get to see the happy medium that UCSC strikes between environmental awareness and dedication to growth. Find out about the process and the hardships of building UC Santa Cruz in the forest.

led by: Danielle Morris

A Campus Made of Students

UC Santa Cruz offers a beautiful environment where students come into contact with ideas that will fuel them for years to come. Students are brimming with such enthusiasm about subjects on hand that threaten our idea of a great future. Many collegiate scholars gather behind various causes and goals in order to preserve peace and prosperity for all. These sites are specifically tailored to the various issues that have occurred or are currently a problem.

A Meditative Walk

Come experience an entrancing and magical walk through the redwood forests of the UCSC campus.

A very unique and extraordinary aspect of the campus--we will embark on some of the most astounding sites that speak to the natural history of the campus. This tour will take the trails through the woods to get from one destination to the other so make sure you wear comfortable close toed shoes.

Bring binoculars, a magnifying glass, or even a notebook if you wish to fully soak in this relaxing walk. These paths are meditative and a little quieter so viewing the natural habitats of the forest is completely possible. Make sure to bring water and a snack as the tour is a little taxing on the body.
